

EDI Setup Questionnaire

EDI

Electronic Data Interchange is the automated exchange of documents in standard electronic form, between organizations, directly from a computer application in one organization to an application in another. As more and more companies are looking to gain access to real-time information, both Internet and EDI have become important tools to send and receive information. At TFI Intermodal group, we are no different and we encourage the use of either technology based on individual customer needs. Currently, our EdI platform can support number of common transactions including:

- 204 Motor Carrier Shipment Information
- 990 / 997 Acknowledgements
- 210 Motor Carrier Freight Details and Invoice
- 214 Transportation Carrier Shipment Stats Message

If you prefer to use EDI to receive information, EDI group will be happy to assist. In order to start the EDI implementations process, we would like your I.T. department to complete and return our questionnaire along with your EDI specifications and sample documents. This questionnaire will provide IT personnel with the necessary information to coordinate discussions and planning for the implementation of your request. You may email the information to edi@tfintermodal.com with subject clearly marked as "EDI Request".

Sincerely,

Vitran EDI Team
edi@tfintermodal.com

EDI Questionnaire - Trading Partner Setup

Upon completion, return this questionnaire, along with your specifications and sample documents, to edi@tfintermodal.com. Once reviewed, we will contact you and coordinate the next step in the EDI process.
